

'Spotting the Signs of Sepsis' Communications: Twitter resources

Partner organisation handles:

@NHSEngland

@ASKSNIFF

@UKSepsisTrust

@StGeorgesTrust

@HINsouthlondon

@NHSChoices

Hashtag:

#spotsepsis

Resources:

Either:

a) Re-tweet the film / film trailer from NHS Choices twitter account

or

b) [Use the Spotting the Signs of Sepsis film logo](#) and tweet with selected text (suggestions below). To save character space, tag partner organisations in the picture instead of @Username.

Suggested Tweets

- Sepsis develops quickly and can be fatal. Could you spot it in your child? Learn how: nhs.uk/sepsis #spotsepsis
- If your child is unwell with a bug or infection, watch this video and learn to #spotsepsis. nhs.uk/sepsis
- Sepsis is a rare but potentially deadly reaction to infection. Do you know the signs? Find out more: nhs.uk/sepsis #spotsepsis
- Evidence-based resource to help parents recognise sepsis in children. Watch the film at nhs.uk/sepsis

- Evidence-based resource to help parents recognise sepsis in children. Find out more: <http://bit.ly/2tUaecF> #spotsepsis
- Sepsis recognition - co-designed with parents, for parents. Watch the film at: [nhs.uk/sepsis](https://www.nhs.uk/sepsis) #spotsepsis
- If a child comes to ED w/any of the symptoms in this film, think sepsis #spotsepsis [nhs.uk/sepsis](https://www.nhs.uk/sepsis)
- Want to show this film to parents in your ED? Get in contact @HINsouthlondon #spotsepsis [nhs.uk/sepsis](https://www.nhs.uk/sepsis)
- We've partnered up @ASKSNIFF @NHSEngland to standardise safety netting for paediatric sepsis. Watch the film now [nhs.uk/sepsis](https://www.nhs.uk/sepsis) #spotsepsis.
