

Catheter care

Awareness Week
18-24 June 2018

Help us promote safer use of
urinary catheters in South London
and beyond!

We want you to help promote catheter safety
and raise awareness of catheter risks for patients
and clinical teams within your organisation

If in doubt, take it out!

To learn more, watch our animation at
www.vimeo.com/healthinnovationnetwork/cathetercare
and tweet us at **#cathetercare** to show
us what you're doing to improve catheter safety

@HINsouthlondon
