

**NHS England ITP Program Ending 31/03/2021**

**Needle Free Non-injectable Arterial Connector (NIC)**

I am writing to you to confirm that the ITP is closing after three years of supporting the diffusion of innovation across the NHS.

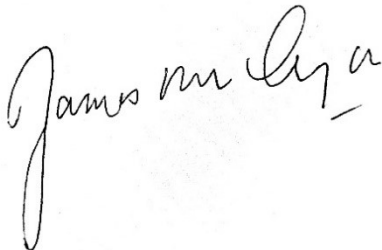

Therefore as of the 31<sup>st</sup> March 2021 the Needle Free Non-injectable Arterial Connector (NIC) will cease to be funded by the ITP and will become a chargeable item.

The ITP diffusion of innovation exercise for England has allowed for the wide-spread adoption of this patient safety device which can now be purchased directly from AmDel Medical Ltd using your usual channels.
