

6 April 2021

Dear Valued Customer

We would like to inform you that from 1 April 2021, the Innovation and Technology Payment (ITP) programme will cease, which means that national funding for ENDOCUFF VISION™ will end.

ENDOCUFF VISION™ has been supported via this process for the last two years and we hope you have been able to benefit from the programme through the clinical benefits of this innovative device.

From 1 April 2021, please terminate the use of the ENDOCUFF VISION™ customer order form which was specifically designed for the ITP process. Going forward please begin to place your orders in the usual way using your standard purchase order (PO) process. The cost of the cuff is £12.05 per unit and the devices come in boxes of 8 (£96.40 per box).

Order Information				
Article Name	Article Number		Description	Quantity Per Box
ARV110	E0420501		ENDOCUFF VISION™ Medium Blue / I.D. 11.0	8
