DIGITISING SOCIAL CARE ENGAGEMENT EVENT

VENUE

Coin Street Neighbourhood Centre
108 Stamford Street,
London, SE1 9NH

WENDESDAY 15TH FEBRUARY
10AM – 5PM

Registration link:
Digitising Social Care Engagement Event Registration

About the Event

The Digitising Social Engagement Event is a chance for anyone and everyone to learn about how and why Social Care is looking to adopt digital technologies. The event will showcase the importance of difference technologies such as Digital Social Care Records (DSCR), acoustic monitoring and remote monitoring and their wide-ranging benefits.

This event will be an opportunity to have face to face conversations with the NHSE-accredited assured suppliers list. You will have the chance to have 1 on 1 conversations with the suppliers and discuss how digitising your organisation can support efficiencies and better health outcomes for your patients & residents. You will also have the opportunity to discuss the products, network with peers, commissioners and colleagues and see suppliers present their products live. You will also have the opportunity to hear presentations of all the assured suppliers which will take place throughout the day.

About the Venue

Where is the Venue?

The venue for the Digitising Social Care Event will be at Coin Street Neighbourhood Centre. The address is 108 Stamford Street, London, SE1 9NH.

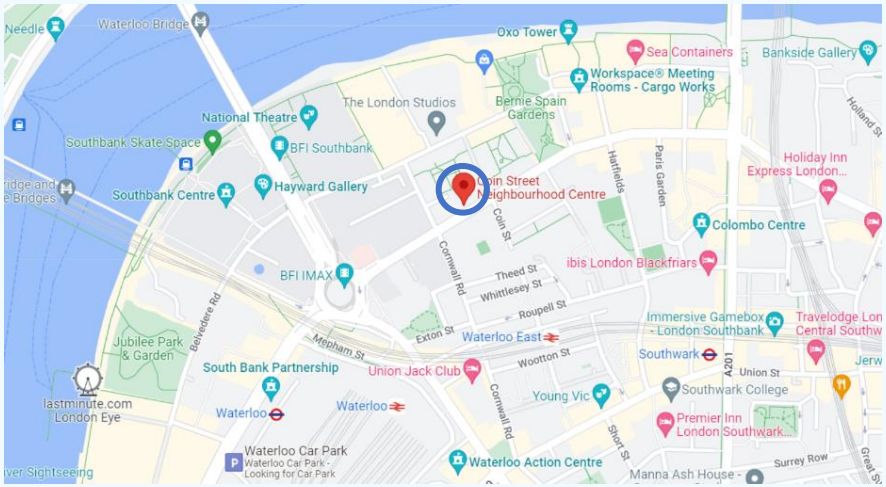
How to get to the Venue

By Car: Coin Street Neighbourhood Centre is situated in central London in the Congestion Zone. The Cornwall Road public car park is located underneath the Centre. There is direct access into the venue from the car park.

By Bus: There is a bus stop 150 meters of the venue. The nearest Bus stops are located on the opposite side of Stamford Street and is served by the following bus services: 381, N343, N381

By Train: The nearest Railway Station is Waterloo and Waterloo East which are located approximately 450 meters (6-minute walk) from the venue

By Underground: The nearest underground station is Waterloo. Waterloo (Bakerloo, Northern, Jubilee, and Waterloo and City Lines) is approximately 550 meters (7-minute walk) from the venue.



DSCR Suppliers

A digital Social Care Record (DSCR) allows the digital recording of care information and care received by an individual, within a social care setting, replacing traditional paper records. DSCRs are person-centered and enable information to be shared securely and in real-time with authorized individuals across the health and care sector.

DSCR suppliers will play an important role in joining up care across social care and the NHS, freeing up time spent by care workers and managers on administrative tasks whilst equipping them with the information they need to deliver care.

DSCR Exhibitors

Carebeans Care Software

Carebeans is a contemporary, innovative software development company based in the UK. They provide comprehensive care management software for the UK care sector. They have 100's of customers using their software, supporting 1,000's of service users with 1,000,000's of data transactions daily.
