

Life Sciences Hub Wales

Accelerating health and social care innovation in Wales

Hwb Gwyddorau Bywyd Cymru
Life Sciences Hub Wales

Who we are

We are an **arm's length body** of Welsh Government.

We exist to catalyse **innovation** and **collaboration** between **industry, health, social care, and academia.**

Our strategic aims:

- Improve health and wellbeing outcomes for people in Wales
- Improve efficiency and value within the health and social care system
- Drive economic development through business growth and jobs.

Cari-Anne Quinn, CEO

What we do

- Create connections
- Support industry engagement
- Work with health and social care in Wales to understand challenges and needs
- Gather insights into the best innovative solutions across industry
- Invite companies and innovators from across Wales, the UK and globally to work with us in Wales
- Work in partnership with a range of stakeholders

Our Support

- Project management services
- Market reports and rapid scans
- Business case development (adoption)
- Funding support
- Partnership development and facilitation
- Events and networks
- Communications support
- Signposting services
