

Atrial Fibrillation Detection

Learning so far...

Sophie Bhandary, Senior Clinical Commissioning Pharmacist, Medicines and Long Term Conditions, SEL ICB

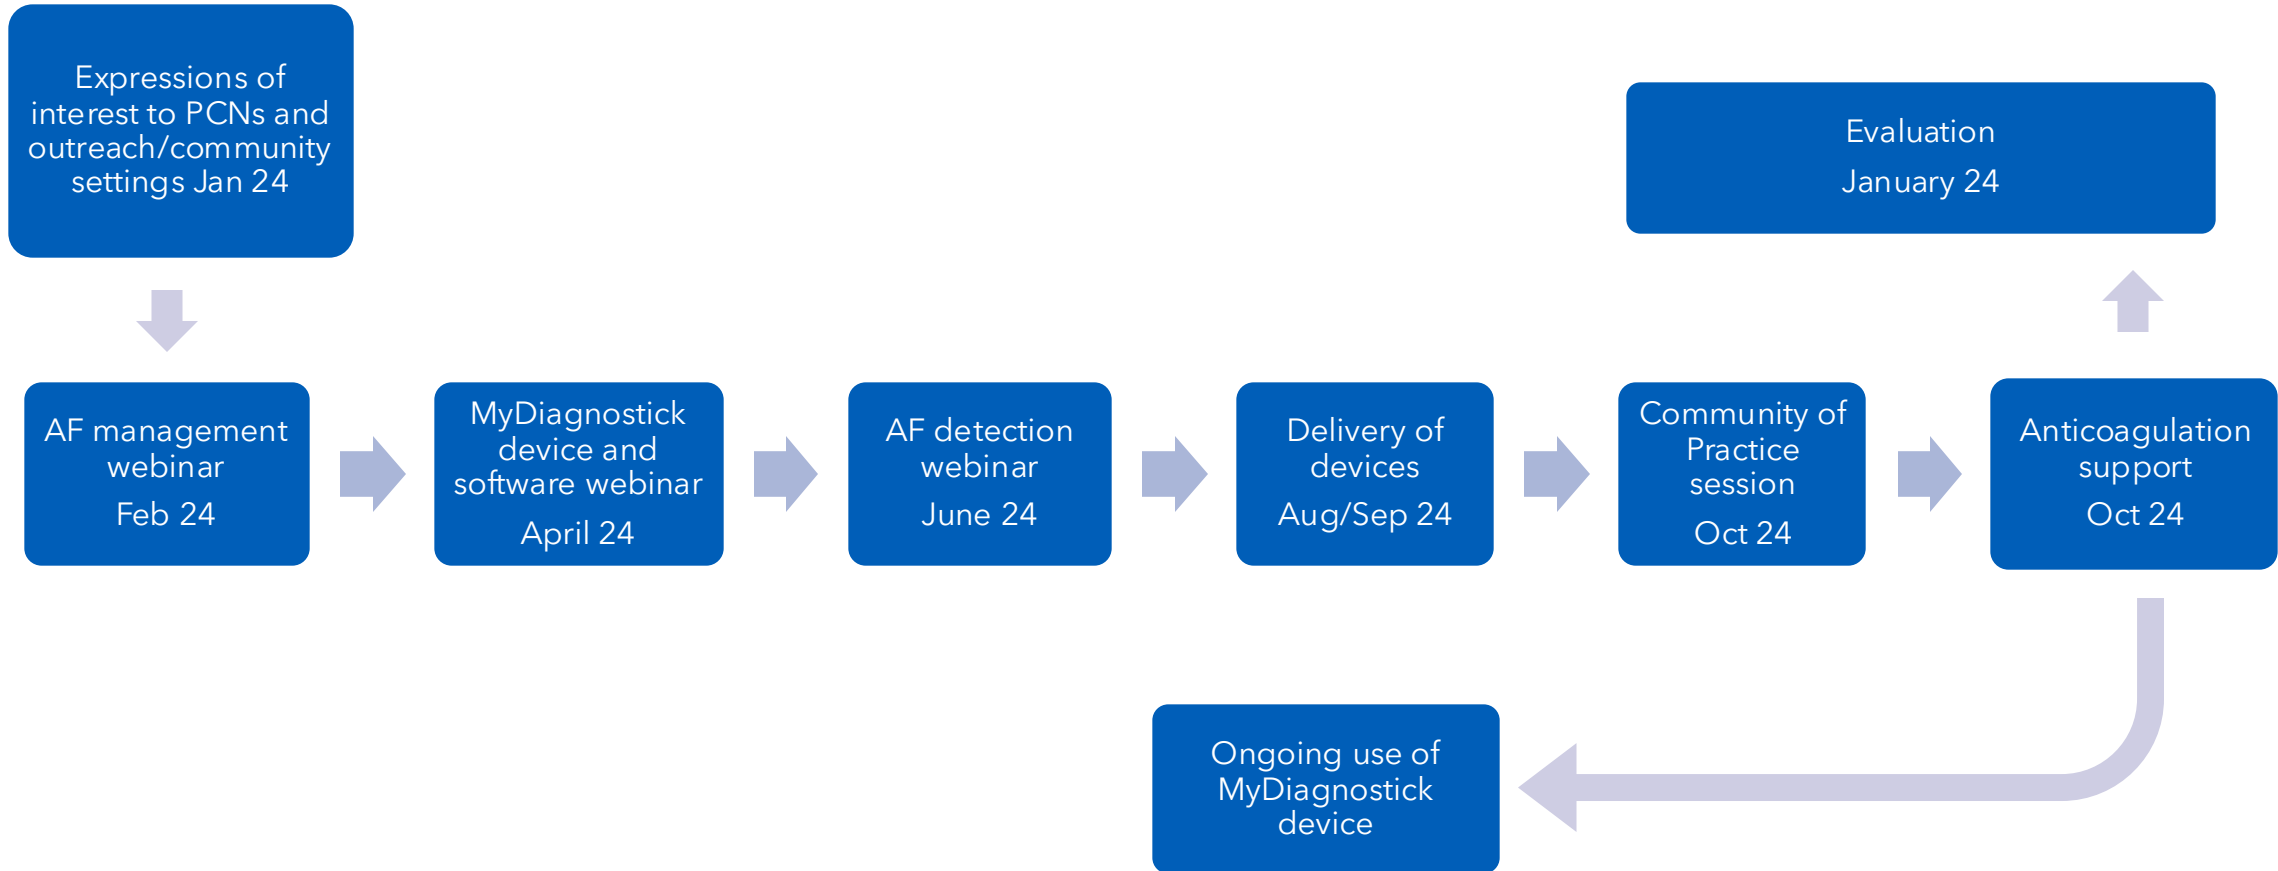

Sally Irwin, project manager, Health Innovation Network South London

Rod Watson, senior project manager, Health Innovation Network South London

Agenda

Items	Speaker
Welcome & purpose of meeting	Sophie Bhandary
Update on project progress	Sally Irwin
Queries received	Sally Irwin/Rod Watson
Sharing learning and experience so far	Attendees
Questions and close	

Project progress

Queries received

- **Will there be any more device and/or software training?**

- There are no further sessions specifically for device use/software planned
- Please see the supporting webinars on the HIN webpage <https://healthinnovationnetwork.com/resources/atrial-fibrillation-detection-devices-resources-2024/>
- Numed website: [MyDiagnostick AF Screening Device \(numed.co.uk\)](http://MyDiagnostickAFScreeningDevice.numed.co.uk) (scroll down to 'Videos – see how it works')
- MyDiagnostick website (software and manuals) <https://www.mydiagnostick.com/about-the-mydiagnostick>

- **Accessing the software**

Primary care:

- SEL ICB or Bromley ICT Department will remotely deploy to each workstation.
- Any issues or application missing, please contact your SEL ICB or Bromley Service Desk team
 - SEL ICB ICT Team (Email: ICT@selondonics.nhs.uk, Tel: 020 8176 5400. Self Service Portal: <https://nhssel.haloitsm.com/portal/home>)
 - Bromley GP IT (IT Service Desk Email: BHC.ITHelpdesk@nhs.net. Tel: 0208 315 8702
 - Self-Service Portal: BHC Self-Service Portal - Login (haloservicedesk.com)

Community, outreach or other sites:

- You will need a link to install the software. You may need to speak with your IT team to do this.
- Contact hin.cvd@nhs.net for the link

Queries continued

- **Receiving devices**

- Please email hin.cvd@nhs.net if you are expecting to and have not yet received your device.
- For primary care we will link you up with your PCN lead
- For community/other sites we can look into this for you

- **Data collection**

- Use **EITHER** the Ardens template **OR** the data monitoring spreadsheet
- There is an Ardens template for use in primary care to record AF detection activity
- If you do not have access to the Ardens template (or prefer not to use it), use the AF programme data monitoring spreadsheet
- Data submission will take place in January 2025

- **Evaluation plan**

AF Detection Evaluation Plan for South East London

South London

AF Detection Evaluation Plan

Objectives:

1. Understand the impact of the project on AF detection.
2. Understand the experience for practices and PCNs, including adoption of the pathway for AF detection and management.
3. Assess what is working well in delivery, for whom is it working well, and why?
4. Understand what challenges and learning from delivery there have been.
5. Understand patients' experiences of the AF pathway.

AF Detection Evaluation Plan

Data collection methods:

- Project monitoring sheet recording data at all sites.
- Online survey for HCPs.
- HCP focus group.
- Short patient interviews separately with 6-7 patients.

AF Detection Evaluation Plan

Proposed timeframe:

<u>Task:</u>	<u>Timeframe:</u>
Sites input data onto monitoring form (Ardens template or excel spreadsheet provided).	September to December 2024.
Sites return their completed monitoring data to Sophie.	Early January 2025.
HCP online survey circulated to HCPs in early January 2025.	Deadline for completion of survey: 31 January 2025.
HCP focus group.	Early-mid February 2025.
Patient interviews.	Early-mid February 2025.
Evaluation report drafted.	By end of February 2025.

Over to you – please tell us

Have you started to use your devices?

PCN leads: have you had any feedback from primary care colleagues?

How are you using (or planning to use) the device e.g. in what clinic?

What additional information/support would be helpful?

What is your experience so far?

Where are you keeping the device?

How has this information been shared with practice colleagues?

Have you had any feedback from patients/service users?

Any questions
